

Lesson 6 – Fixed Analogies.

In this exercise you need to look at each set of words; work out the relation of the first pair to one another and then complete the relationship for the second pair.

For example:

Skin is to *banana* as *bark* is to *tree* – skin covers a banana, and bark covers a tree.

Now look at the questions on the next page. Try to do each one as quickly as you can but make sure you finish them all. Time yourself. You need to be able to complete 20 in 10 minutes. When you have finished write your time in the box at the top.
