

Problem Solving Using Addition

Try and use your knowledge of addition to solve the following problems.

1. I have 149 stickers. My friend gives me 27 more stickers. How many do I have all together?

2. In a school one class room has 17 children; the second has 32 children and the third has 29 children. How many children are there in total?

3. If I have a bag with 417 sweets in it and I add another 268, how many sweets do I now have?

4. What is the sum of 534, 138, and 673?

5. Add the following numbers, 42, 7, and 416.

6. 362 plus 905

7. If I have 438 pencils and I gain another 67, how many pencils do I have in total?

8. Now make a list of all the different ways we can write 'add'.
