

## Multiplying 1 digit by 2 or more

Remembering the **distributive** method of multiplication, try and do these in your head as quickly as possible!

1)  $5 \times 34 =$  \_\_\_\_\_ 2)  $6 \times 42 =$  \_\_\_\_\_

3)  $6 \times 54 =$  \_\_\_\_\_ 4)  $4 \times 57 =$  \_\_\_\_\_

5)  $9 \times 17 =$  \_\_\_\_\_ 6)  $9 \times 81 =$  \_\_\_\_\_

7)  $7 \times 39 =$  \_\_\_\_\_ 8)  $2 \times 94 =$  \_\_\_\_\_

9)  $44 \times 6 =$  \_\_\_\_\_ 10)  $53 \times 8 =$  \_\_\_\_\_

Now remember the **property of 0** – any number multiplied by  $0 = 0$ . Also remember the **property of 1 (identity property)** any number multiplied by 1 will remain the same; complete these in your head.

11)  $0 \times 17 =$  \_\_\_\_\_ 12)  $23 \times 1 =$  \_\_\_\_\_

13)  $38 \times 0 =$  \_\_\_\_\_ 14)  $32 \times 1 =$  \_\_\_\_\_

15)  $48 \times 0 =$  \_\_\_\_\_ 16)  $1 \times 54 =$  \_\_\_\_\_

17)  $1 \times 93 =$  \_\_\_\_\_ 18)  $0 \times 14 =$  \_\_\_\_\_

19)  $87 \times 1 =$  \_\_\_\_\_ 20)  $75 \times 0 =$  \_\_\_\_\_
