

Mental Maths Practice Paper 2

**“Now we are ready to start the test. For this group of questions, you will have 5 seconds to work out each answer and write it down.”**

Number	The Questions
1	What is double forty-three?
2	Subtract thirty-two from one hundred.
3	What is three multiplied by eight?
4	What is four tenths as a percentage?
5	Write three hundred thousand in figures.

**“For the next group of questions, you will have ten seconds to answer each question and write it down.”**

Number	The Questions
6	How many centimetres are there in three quarters of a metre?
7	Look at your answer sheet. Circle the coldest temperature.
8	What is the remainder when thirty-four is divided by eight?
9	Look at the table on your answer sheet. How much more does a book cost than a ruler?
10	Add together nought point three, nought point one and nought point seven.
11	A magazine costs thirty one pence. Ahmed buys three magazines. What is the change from one pound?
12	Look at your answer sheet. Estimate the size of angle x.
13	Four times a number is two hundred and eighty. What is the number?
14	How many grams are there in one and a half kilograms?
15	What is twenty, times fifty, times ten?

**“For the next group of questions, you will have fifteen seconds to work out each answer and write it down.”**

Number	Questions
16	Add together twenty seven and fifty five.
17	Five cookies cost 30 pence altogether. How much do nine cost?
18	What number is exactly half way between two point five and two point six?
19	Write two factors of 30 which add up to eleven.
20	Multiply forty-seven by eight.

## ANSWERS

1. 86
2. 68
3. 24
4. 40 %
5. 300 000
6. 75 cm
7. - 1°C
8. 2
9. 45 p
10. 1.1
11. 7 p
12. 100° approx (do not accept 90°)
13. 70
14. 1500 g
15. 10 000
16. 82
17. 54 p
18. 2.55
19. 5 and 6
20. 376
